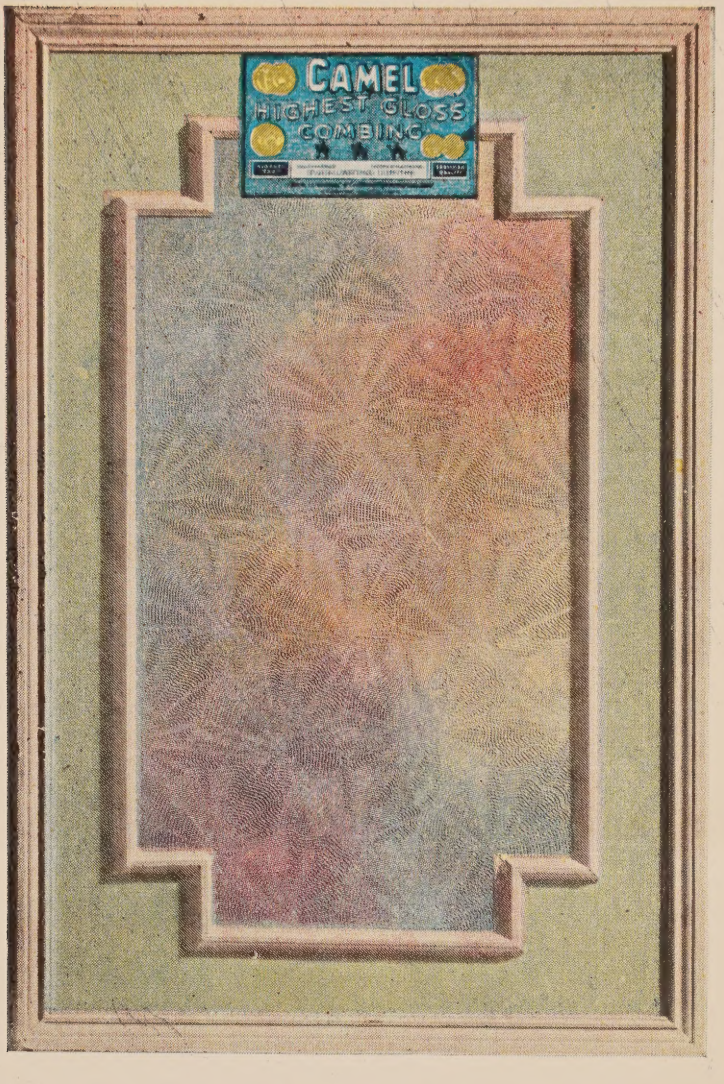
GERM-Proof Film
Camel

COPYRIGHTED AND REGISTERED U. S. PATENT OFFICE



❖ APPLICATION ❖

FOR COMBING:- Apply Camel Combing with a brush like any other ordinary paint. Brush it out evenly. The surface is then ready for the one or a thousand and one varied effects a person's individuality would care to create. Use an ordinary grainer's steel comb, to obtain an effect such as the Spanish Fan, Cone, Circle, or any one of a multitude of other comb designs.

FOR BLENDING & COLOR EFFECTS with Camel Combing, or Stipple, or Texture Paint, mix the above to desired shades by adding Camel Pure Oil color, in separate containers, apply to wall in as many shades as may be desired, with different brushes. Do not put one color on top of another, but you may overlap and blend in the edges.

Samples and advice will be furnished by your dealer or our technical division.
